## SUMMARY

Strategic Data Consultant and CFA Level III Candidate continuously bridging the gap between advanced technical execution and business strategy. Experienced in leveraging machine learning and financial modeling to solve complex problems. Skilled in translating highly technical data architectures into clear, actionable insights for cross-functional teams and leadership.

## EDUCATION

**University of California San Diego [Data Science, Bachelor of Science]**

exp. Jun 2026

- **Cumulative GPA:** 3.6 / 4.0; **Major GPA:** 3.8 / 4.0
- **Relevant Coursework:** Time-Series Analysis, Probabilistic Modeling, Representation Learning, Financial Mathematics
- **Awards:** HDSI Best Visualization Project, Rady Advanced Fundamental Equity Valuation Tournament

**Chartered Financial Analyst Exam, CFA® Institute**

- Level 3 Candidate (Passed Level 1, 2 | **Top 10%**)

## WORK EXPERIENCE

**Prism Data – Data Science Extern**

Sep 2025 – Mar 2026

- Built a transformer model to turn bank statement information into categories with 95% accuracy and F1 score
- Engineered Cash Scoring model with technical and financial knowledge, the product achieved 86% ROC-AUC
- Created “Agentic Workflow” in feature creation, fully automated from proposing hypothesis to validation
- This project allows users to analyze the loan applicant’s spending habit and quantify creditworthiness as Cash Score

**UC San Diego, California – Research Assistant**

Jun 2024 – Feb 2025

**Army, Republic of Korea – Sergeant**

Feb 2021 – Aug 2022

- Commended a unit of 25+ ; oversaw artillery and coordinated with emergency services during the Covid-19 pandemic

## PROJECT EXPERIENCE

**Cross Market Lag Research**

May 2026 – May2026

- Architected quantitative research frameworks, spanning data collection to validation via rigorous statistical testing
- Identified 60 significant cross-border correlations by analyzing lagged response signals across international markets
- Executed anomaly detection protocols with conservative cost and robust assessment with multi-stage permutation

**Shorelife [California Beach Health Forecasting]**

Apr 2026 – Present

- Developed a machine learning platform forecasting daily bacteria risk for California beaches for surfers and swimmers
- Built robust pipelines integrating marine microbiology, hydrology, and weather data into a data warehouse
- Launched intuitive consumer interfaces, including a web platform and a mobile application with interactive risk maps

**Data Visualization Project [Major League Baseball]**

Apr 2025 – Jun 2025

- Conducted end-to-end analysis of data to quantify complex relationships, visualizing outcomes among the batters
- Built a website with interactive 3D models with narrative to communicate complex findings to non-technical viewers

## SKILLS & INTERESTS

- **Technical Skills:** Python, SQL, Excel, JavaScript (D3, HTML, CSS), R, SAS, Stata, AWS, Tableau, Power BI
- **Methods:** Machine Learning, NLP, Time Series, Financial Modeling, Agentic Workflow, Prompt Engineering
- **Core Competencies:** Statistical Analysis, Data Visualization, Quantitative Analysis, Econometrics
- **Language:** Korean, English, Chinese Mandarin (intermediate)
- **Interests:** Surfing, Strength Training, Traveling, Scotch Whiskey

## CLUB ACTIVITIES

**Rotary – Rotractor**

Apr 2023 – Present

- Community service club: feed San Diego, first Saturday homeless outreach, Sarah’s closet, beach clean-up and more
